from Udemy

PERSONAL PROJECTS

Project 1: Web-Project-Final-Version (02/2022 - 08/2023)

▫ A collaborative platform utilizing PHP, JavaScript, CSS, HTML, and SQL to share, validate, and discover the best supermarket offers while rewarding active users with 'points'.

Project 2 : ApartEase (01/2023 - 07/2023)

▫ ApartEase simplifies and enhances the rental experience for all parties involved.

Project 3 : Machine - Learning (12/2022 - 05/2023)

▫ This project dives into "Machine Learning A-Z™" course, covering regression, classification, clustering, and more. It's about empowering systems to learn from data, with practical code examples for hands-on experience.

Project 4 : ClubCamp (06/2022 - 03/2023)

▫ ClubCamp: Your ultimate guide to discovering the hottest clubs in every Greek city, with global expansion on the horizon. Merging HTML, CSS, JavaScript, Node.js, and web skills, this website is your key to nightlife exploration.
